The Library Club

The Library Club is a service agency which is composed of the Student Assistants who work in the library during their study period. They work at the circulation desk, file cards, prepare bulletin boards, shelve books, letter books and perform routine clerical duties as they are able. Some of the assistants have worked in the library from its beginning in the Spring of 1967. It is their goal to make the library the heart of the school with all phases of the curriculm centered around the resources found within its walls.

The Science Club this year is one of the most active and news worthy at Huffman. Its most important activity was the science fair. Other activities include an interesting trip to a steel mill, a science banquet in April, and last but not least, a trip to Redstone Arsenal.

There are 31 members of the science club, and hopefully more to come. To join, a student must take science and maintain a C average in his academic subjects. HHS hopes to have a junior annex of the science club for freshman and sophomore students.

"Man's basic vice, the source of all
his evils, is the act of unfocusing
his mind, the suspension of his con-
sciousness, which is not blindness,
but the refusal to see, not ignorance,
but the refusal to know ... "

- Patrick H. Smith, M.D.

Next
year
we
expect
it to
be an
even
greater
one.
